

PETER ALLEN

Yate, Bristol | 07506 700 424 | peter@peterallen.me

I'm a Full Stack Developer with around 10 years' experience across PHP/Laravel, JavaScript, Node.js, Python and Google Cloud. I've recently been working in a Lead capacity within a small team, combining hands-on development with mentoring and contributing to technical direction, and I'm particularly interested in roles where I can continue building and evolving both new and existing systems while supporting team and overall business growth.

EXPERIENCE

Lead Software Developer | Dec 2024 → Present

Software Developer | Jan 2022 → Dec 2024

Culverdocs | Swindon, Wiltshire

Cloud-based data capture platform delivering bespoke business solutions.

Key Contributions

- Modernised a large legacy vanilla PHP codebase through structured refactoring, performance improvements and feature development.
- Designed and implemented new architecture components, including:
 - Laravel-based REST API
 - Internal GraphQL API
 - React/Inertia internal applications
 - Node.js microservices
- Delivered bespoke customer solutions ranging from third-party API integrations to full-scale business applications.
- Owned the full project lifecycle: requirements gathering, scoping, quoting, development, testing and deployment.
- Built and maintained systems hosted on Google Cloud Platform, using Cloud Run, Compute Engine, Cloud SQL, Firebase and message-based processing.
- Supported the growth of the engineering team, mentoring a junior developer and helping establish development practices.
- Contributed to wider business activities including product direction, sales support, marketing (Google Ads, Capterra) and strategic decision-making.
- Involved from early-stage company growth through to scaling operations.

Tech: PHP, Laravel, Node.js, React, GraphQL, GCP, MySQL, MongoDB, Firebase, CI/CD Pipelines, Docker

IT Manager | Jan 2017 → Dec 2021

Marketing Executive | May 2013 → Jan 2017

IT Apprentice | May 2012 → Apr 2013

Edison Ford | Bristol

Multi-division professional services business undergoing digital transformation.

Key Achievements

- Designed and built a Laravel-based property maintenance platform to streamline operations.
- Led company-wide IT improvements, infrastructure support and systems management.
- Migrated telephony from ISDN to SIP and developed a custom dashboard integrating XML call data.
- Launched a 360° virtual tour and professional photography service, creating a key commercial differentiator.
- Managed and optimised Google Ads campaigns generating over £100k in revenue.
- Played a central role in transforming the business into a digitally focused organisation.

Tech: Laravel, PHP, MySQL, XML integrations, Google Ads, IT infrastructure

PERSONAL PROJECTS & INTERESTS

- Ongoing personal software projects to explore new technologies and approaches.
- Landscape photography and creative content, including YouTube. See my website; <https://peterallen.photography>.
- Active contributor to technical development and improvements for aDoddle.org.
- Strong interest in building practical, user-focused solutions.

VOLUNTARY EXPERIENCE

Lead Software Developer – If Everyone Cares CIC (aDoddle.org) | 2015 → Present
